petition between the United Stores Company and the retailers of New York and Chicago, In New York a retailer leased a favorable room at \$6,000 a year. The United Company offered him a good price for the lease. He declined. The United Company leased the adjoining room at \$15,000 a year, opened a store and marked its goods down 66 per cent. Of course the retailer could not meet such competition.

The Consolidated Company is said to control the business of the world, in spite of the reports that it had been worsted in its fight against the British jobbers at a loss of \$7,500,000. Duke is president of the Consolidated, and twelve of the eighteen directors are Americans and connected with the American companies. A favorite and ingenious method of the trust is to start new companies which seemingly have no connection with, but which are really owned by it. The avowed purpose-and of ment-is to get control of the retail trade of the country. Once this is done, many sources of expenditure which the trust regards as superfluous will be done away with. Advertising is one of these. The saving in advertising will amount to millions of dollars every year. The middleman retailer's profits is another source. By selling direct to the consumer, tens of millions of dollars will be added to the annual revenues of the trust. Moreover, the trust can set its own standard of goods. That is to say, where, under competition, retailers try to excel in quality of goods offered

DARING ROBBERY IN CROWDED STREETS OF CHICAGO.

John Coleman was given a good race for the distinction of fraternal delegate to Carrier's Horse and Wagon Canada by Mack Taylor, but won on the Stolen and \$10,000 Taken from Two Sacks of Letters.

CHICAGO, Nov. 22.-The Chicago postoffice was the victim to-night of one of the most daring robberies that has ever been perpetrated in this city. Ten thousand dolcourts to issue injunctions to prevent the destruction of property and violations of lars is the amount believed to have been secured by the robber, who made his escape without leaving any clew to his identity. Two mail sacks containing the money, which had just been picked up from two of the down-town substations, were left in an it had protested. He denied emphatically that he wished to favor "government by injunction," but thought that widespread condemnation of horse and wagon had disappeared. While the carrier had been in the building the robber, who evidently had been waiting his opportunity, had jumped into the rig and

drove away. The street was full of people at the time, but no one seems to have noticed the thief. The two mail sacks, cut open and rifled of their contents, were found near Kirk's The police and federal authorities were notified less than two minutes after the robbery occurred, but no trace of the robber has been secured. Both the mail bags were full of registered letters. Osborne, an aged scientist and inventor, and to maintain the restored tariffs abso-

This action is probably the most important from a traffic standpoint taken by Western roads in years, and will have a marked effect on the revenues of 1903 provided it develops that the tariffs can be maintained. Traffic men engaged in the work of preparing to take out the reduced tariffs state to-night that the restoration of rates to the basis of Jan. 1, 1902, would add fully 25 per cent. to the revenue re-ceived on commodities affected and fully 10 per cent, to the aggregate gross revenue received by Western roads.

DENVER, Col., Nov. 22.-The Republican says: "Articles of incorporation of the Colorado, Arizona & Gulf Railroad Company will be filed within a few weeks. The road will furnish transportation to new areas of southwestern Colorado, northwestern New Mexico, southeastern Utah and central Arizona. The route between this city and the Pacific coast, as planned, will extend in almost a direct line to San Pedro harbor, on the coast of southern California. The railroad is generally claimed to be a Gould project, which will, when completed, furnish a Western outlet for the Missouri Pacific-Denver & Rio Grande systems, and also for the Goulds' Texas Pacific system. At the same time incorporation papers will be filed for three development companies which will exploit the mineral deposits along the right of way. The project includes the construction and operation of reduction works, steel plates, coal mining and kindred industries. The final details of the project are being arranged in Pittsburg now, where several interested capitalists reside. The aggregate capitalization will be \$50,000,000."

"If mothers who dread the baby's coming would take Dr. Pierce's Favorite Prescription they would find it a great help and benefit," writes Mrs. L. R. Henderson (President Milwaukee Woman's Literary Club), of 623 Grand Ave., Milwaukee, Wis. "After the birth of my first child I did not seem to regain my health, so began to take your medicine, and in two weeks I felt stronger and able to be about, so kept taking it for two months and found at the end of that time I had completely regained my usual health. I also found that it was of benefit to take a few months prior to baby's advent; in fact it is of great benefit in all forms of female weakpess."
